

COUNCIL OF THE HAIDA NATION

October 18, 2012

Let it be known

The Hereditary Chiefs Council and the Council of the Haida Nation are in no way involved in artificial fertilization through dumping of iron compounds in the ocean around Haida Gwaii

The consequences of tampering with nature at this scale are not predictable and pose unacceptable risks to the marine environment.

Our people along with the rest of humanity depend on the oceans and cannot leave the fate of the oceans to the whim of the few.

Guujaaw,
President of the Haida Nation
